NEW! AUTHORITY22™ LANE MAINTENANCE SYSTEM

NEW! Authority22™ Lane Machine

R8-020000-000 (115V)

R8-020002-000 (230V)

The Authority22™ Lane Maintenance System by Brunswick addresses industry challenges by combining advanced technologies with Brunswick's unparalleled understanding of the lane maintenance needs of bowling centers.

- Accu-ject™ innovation allows precise direct application of lane conditioner to the lane surface, board by board.
- Pattern development becomes simpler, faster and more predictable.
- No more wicks or smoothing pads.
- The buffer brush blends the conditioner for smoother pattern transition.

NEW! Authority22™ W22 Lane Conditioner

62-860205-005

- 100% solids, 22.0 viscosity.
- 100% Silicone free.
- Pattern friendly, mechanic friendly.
- Special grade Swedish oil.
- Formulated for all lane surfaces.

NEW! Authority22™ Lane Cleaner

62-860206-005

- Special additive package to clean even the toughest lane conditioners.
- Special defoaming agent for large tanks.
- Cleans with one pass.
- Guaranteed performance.

NEW! Authority22™ Duster Cloth

62-860207-000

The Authority22 Lane Duster Cloth cleans the lane before the cleaner is applied. The process uses less cloth and helps the cleaner work directly on the conditioner, not the surface dirt.

- 60' per roll.
- Special fiber maximizes scrubbing action.
- Absorbs dirt and cleaner fast.

NEW! No-Spill Mixing Vessel

14-860209-000

- Patented technology.
- Controls flow of liquid to cleaner tank.
- Convenient no-spill container.

Control® Lane Conditioner for Sanction Technology and Wick Lane Machines

62-860046-005 (5 Gallons)

62-860046-001 (1 Gallon)

Control lane conditioner offers lasting patterns, reduced carry-down and better ball reaction. Control features Brunswick's exclusive Volumetric Flexibility to give you more room for error and greater adaptability to a wider range of lane conditioning needs.

- Control – 100% solids, 35.0 viscosity.
- Durable pattern performance game after game.
- Formulated for compatibility with all lane surfaces.
- Available in 5 gallon and 1 gallon containers.
- 100% Silicone free.

Control®LV Lane Conditioner for Wick Lane Machines - Viscosity 28

62-860141-005 (5 Gallons)

62-860141-001 (1 Gallon)

Now you can have all the great characteristics of Control lane conditioner – lasting patterns, reduced carry-down and better ball-reaction – with Control LV low viscosity conditioner. Control LV low viscosity formula improves wick-flow performance in wick lane machines and wick application. Both lane conditioners feature Brunswick's exclusive Volumetric Flexibility to give you more room for error and greater adaptability to a wider range of lane conditioning needs.

- Control LV – 100% solids, 28.0 viscosity.
- Durable pattern performance game after game.
- Formulated for compatibility with all lane surfaces.
- Available in 5 gallon and 1 gallon containers.
- 100% Silicone free.

Absolute Control® Lane Conditioner

62-860143-005 (5 Gallons)

62-860143-001 (1 Gallon)

Brunswick Absolute Control is a high-tech combination of the formulas and ingredients from Brunswick's highly successful Absolute HV and Control lane conditioners. These two formulas combine to make one great lane conditioner that has all of the benefits of Control – durability, flexibility and easy cleaning – and has the awesome resistance to carry-down that has made Absolute HV a best seller for over 10 years. Two great conditioners in one!

- Absolute Control – 100% solids, 19.0 viscosity.
- Consistent performance game after game.
- Less carry-down, keeping your back ends and pinsetters/pinspotters clean.
- Formulated for compatibility with all lane surfaces.
- Easily removed with any Brunswick lane cleaner.
- Available in 5 gallon and 1 gallon containers.
- 100% Silicone free.

Command™ Lane Conditioner

62-860022-005 (5 Gallons)

Throbot™-tested, proven in leagues and tournament play worldwide. Formulated to stay put and stand up to today's high-performance bowling balls and bowlers. For wick and wickless machines.

- 100% solids, 22.5 viscosity.
- Cleans easily.
- Consistent performance in high linage centers.
- Less breakdown in the heads, less carry-down in the back ends.
- 100% Silicone free.

Invincible® Lane Cleaner

62-860055-005 (5 Gallons)

62-860055-030 (30 Gallons)

Designed to clean even the toughest lane conditioners. Formulated to be fast acting for today's newer lane machines. Simply the most effective lane cleaner available today.

- Water based lane cleaner
- Special additive package to clean even the toughest lane conditioners.
- Guaranteed performance.
- For vacuum lane cleaning only.

Lustre Sheen Polishing Compound

14-800007-000

(2 compound blocks per package)

Provides a higher level of polish (the standard compound for Ballworx). 100% compound, no fillers.

- Offers highest gloss of any polishing compound.
- For plastic, urethane or performance bowling balls.
- Fits Ballworx, Lustre Kleen and Lustre King.

Approach Dry Slide

62-860210-600
(12-11.2 oz Canisters)

Approach Dry Slide is a non-abrasive powder used to eliminate sticky approaches. It can be used on both wood and synthetic approaches and is easy to apply. Offered in a convenient 11.2 oz shaker canister for ease of application.

- Non-abrasive.
- Eliminates sticky approaches.
- Used on both wood and synthetic approaches.
- Best product offered to eliminate sticky approaches.

**Pin Deck Treatment
Brunswick Liquid Friction**

62-860138-000
(2 - 1 Gallon container with 1 spray bottle)

Effectively ends out-of-range and sliding pin problems. Liquid Friction quickly and effectively increases the coefficient of friction of pins decks, promoting falling pins over sliding pin action.

- Easy to use.
- Just spray and dry.
- Works effectively with both wood or synthetic pin decks.

IPA 99 Synthetic Approach Cleaner

61-860254-000
12 - 1 Quart bottles with 4 sprayers
61-860255-000
4 - 1 Gallon refill bottles

Synthetic approaches need to be cleaned with a product that will not leave moisture on the approach surface. IPA 99 effectively "conditions" a synthetic approach after it has been spot cleaned; it also displaces surface moisture as part of a regular synthetic approach maintenance program.

- Convenient 1 quart spray bottles with sprayer.
- One gallon refill containers.
- Pulls moisture from synthetic approaches.
- Not recommended for use on wooden approaches.

Deck Chute Conditioner

62-860029-000 (1 Quart)

Improve the durability and performance of your deck chutes with deck chute conditioner. Longer lasting, and more stable, this Advanced Performance deck chute conditioner has been designed to minimize deck jams by allowing pins to slide easily through the chutes.

- Improved formula promotes longer chute life.
- Durable and more stable.
- Minimizes deck jams and downtime.

Gold Edge Lane Cleaning / Dusting Cloth

61-860252-000 (4 Rolls/carton)

Sets the new standard in lane cleaning and dusting cloth. Composed of a specially designed mixture of fibers to maximize "scrubbing action" and to edge out the competition.

- 60' per roll.
- Specially designed scrubbing weave.
- MAX absorb design for fast and complete cleaner pick up.

Computer Lane Monitor Optical Reader

61-860225-600 (110 V)
61-860225-620 (220 V)

The Brunswick Lane Monitor provides the ultimate in accuracy and reliability for measuring and graphing lane conditioner volume and distribution.

- Higher resolution for improved accuracy.
- Increased range accommodates higher conditioner volumes.
- Addition of USB port provides compatibility with new PCs.
- User-friendly software.
- Holds higher graph scales.
- High capacity tapes are conveniently read from end-to-end.

LANE CONDITIONERS AND LANE CLEANERS

NEW! Authority22™ W22 Lane Conditioner

62-860205-005

- 100% solids, 22.0 viscosity.
- 100% Silicone free.
- Pattern friendly, mechanic friendly.
- Special grade Swedish oil.
- Formulated for all lane surfaces.

Command™ Lane Conditioner

62-860022-005 (5 Gallons)

Throbot™-tested, proven in leagues and tournament play worldwide. Formulated to stay put and stand up to today's high-performance bowling balls and bowlers. For wick and wickless machines.

- 100% solids, 22.5 viscosity.
- Cleans easily.
- Consistent performance in high linage centers.
- Less breakdown in the heads, less carry-down in the back ends.
- Wicks quickly.
- 100% Silicone free.

Absolute Control®

62-860143-005 (5 Gallons)

62-860143-001 (1 Gallon)

Brunswick Absolute Control is a high-tech combination of the formulas and ingredients from Brunswick's highly successful Absolute HV and Control lane conditioners. These two formulas combine to make one great lane conditioner that has all of the benefits of Control – durability, flexibility and easy cleaning -- and has the awesome resistance to carry-down that has made Absolute HV a best seller for over 10 years. Two great conditioners in one!

- Absolute Control – 100% solids, 19.0 viscosity.
- Consistent performance game after game.
- Less carry-down, keeping your back ends and pinsetters/pinspotters clean.
- Formulated for compatibility with all lane surfaces.
- Easily removed with any Brunswick Lane Cleaner.
- Available in 5 gallon and 1 gallon containers.
- 100% Silicone free.

The Equalizer Conditioner Additive

62-860875-001 (4 x 1 Gallons)

Fine-tunes your lane conditions. Use The Equalizer with any Brunswick conditioner to customize them to your center's own particular needs.

- Concentrated formula.
- Allows adjustments for temperature, humidity and linage.

Control® Lane Conditioner

62-860046-005 (5 Gallons)

62-860046-001 (1 Gallon)

Control® LV Lane Conditioner

62-860141-005 (5 Gallons)

62-860141-001 (1 Gallon)

Control® and Control LV lane conditioners offer long-lasting patterns, reduced carry-down and better ball reaction. Control LV's reduced viscosity improves wick flow in wick lane machines. Both lane conditioners feature Brunswick's exclusive Volumetric Flexibility to give you more room for error and adaptability to a wider range of lane conditioning needs.

- Control – 100% solids, 35.0 viscosity.
- Control LV – 100% solids, 28.0 viscosity.
- Durable pattern performance game after game.
- Formulated for compatibility with all lane surfaces.
- Available in 5 gallon and 1 gallon containers.
- 100% Silicone free.

Brunswick Absoluté

62-860104-005 (5 Gallons)

Brunswick Absoluté HV

62-860106-005 (5 Gallons)

Reduce carry-down and get more consistent lane conditions with these revolutionary European lane conditioners.

- Regular or high viscosity formula.
- Works well on any lane surface.
- Removed easily with any Brunswick lane cleaner.
- 100% Silicone free.

NEW! Authority22™ Lane Cleaner

62-860206-005

- Special additive package to clean even the toughest lane conditioners.
- Special defoaming agent for large tanks.
- Cleans with one pass.
- Guaranteed performance.

Squeaky LD Lane Cleaner

62-860054-005 (5 Gallons)

The name says it all. You can't beat Squeaky for hand cleaning your lanes.

- Water-based, low in detergent.
- No residue left behind, just a "squeaky" clean lane.

Invincible® Lane Cleaner

62-860055-005 (5 Gallons)

62-860055-030 (30 Gallons)

Designed to clean even the toughest lane conditioners. Formulated to be fast acting for today's newer lane machines. Simply the most effective lane cleaner available today.

- Water based lane cleaner.
- Special additive package to clean even the toughest lane conditioners.
- Guaranteed performance.
- For vacuum lane cleaning only.

CV98 All Purpose Cleaner

62-860198-005 (5 Gallons)

62-860198-030 (30 Gallons)

Heavy-duty lane cleaning – and more. CV98 is the pacesetter for cleaning power and speed, as a new generation of surfactants, solvents and detergents take on high-viscosity mineral oils, ground-in grit and conditioners.

- Tough on all lane conditioners; gentle on all vacuum lane-stripping equipment.
- Cleans virtually anything in your center: pinsetters, machinery, balls, pins, shoes, kitchens, restrooms, masking units, and any kind of flooring.
- Streak-free formula works on glass and metal surfaces, too.

Intense™ Concentrated Cleaner

62-860139-012 (12 Quarts)

Never has so much cleaning power been packed into such a small package! Intense lane cleaner is a concentrated liquid that mixes more effectively and efficiently than tablet concentrates to give you more coverage for your dollar. Available in 12 one-quart packages.

- 1 quart equals 5 gallons of cleaner.
- Soluble liquid formula offers easy, efficient mixing.
- Freight savings.
- Recommended for use with vacuum lane cleaning machines.

CV88 All Purpose Cleaner

62-860188-005 (5 Gallons)

62-860188-030 (30 Gallons)

#1 all purpose cleaner in the bowling industry, recommended for use in all vacuum lane strippers. Works well in other areas of the bowling center, too – from everyday cleaning to stubborn grease and grime.

- Diluted five-to-one, vigorously cleans dirty lanes.
- Streak-free formula works on glass and metal surfaces, too.

LANE CONDITIONERS AND LANE CLEANERS

ProTech™ Lane Conditioner

1209405 (5 Gallons)

- Additive package makes ProTech incredibly stable and durable.
- Correct balance between viscosity and surface tension provides perfect ball reaction.
- Medium viscosity formula is compatible with all lane machines.
- Clean, pure formulation prevents sticky residue and is removed easily with any DBA lane cleaner.
- Every batch is tested in the lab and on the lanes to ensure consistent performance.

LaneTech™ Conditioner

1209305 (5 Gallons)

- Specially formulated for today's high-performance balls.
- Proven effective in league and tournament play worldwide.
- Less breakdown in the heads, less carry-down in the back-end.
- Cleans easily, performs consistently in high-linage centers.
- 100% solids, 22.5 viscosity.
- For wick and wickless machines.

Endurance™ Conditioner

1209205 (5 Gallons)

- Multiple-oil formula.
- DBA's first conditioner based on lubricity, not viscosity.
- Requires less conditioner per application, which means more stable, longer lasting lane conditions.
- Extremely easy to clean; works with any lane cleaner.
- The industry's first conditioner developed with Throbot™ research.
- Excellent flow characteristics; a great match for any lane machine. DBA's fastest wicking conditioner.

Clear™ 100% Solids Lane Conditioner

1208015 (5 Gallons) Clear High Viscosity

1208115 (5 Gallons) Clear Low Viscosity

1208505 (5 Gallons) Clear Super 50

- Combats conditioner depletion due to reactive bowling balls, track flare and poor lane surfaces.
- 100% solids—no harmful solvents.
- Lighter base oils to allow superior flow.
- Cleaner than other 100% solids formulations.
- Remains uniformly smooth following application.
- Environmentally friendly.
- Three viscosities available.
- Blendable to create the ideal viscosity for ANY type lane surface or finish.

Muscle® Lane Cleaner

1304425 (5 Gallons)

Designed to clean even the toughest lane conditioners. Formulated to be fast acting for today's newer lane machines. Simply the most effective lane cleaner available today.

- Water-based formula.
- Guaranteed performance.
- For vacuum lane cleaning only.

White Glove™ Multi-Purpose Cleaner

1375915 (5 Gallons)

13759130 (30 Gallons)

- Ideal for any type of lane surface or finish.
- Recommended for use in all vacuum lane cleaning machines and manual lane cleaning.
- Leaves no film or residue.
- Can be diluted for various cleaning jobs around the entire center.

LANE DUSTING SUPPLIES

Lane Dusting tips

- Do NOT apply pressure to the Lane Maid unit—simply drag behind and let the weight of the unit apply pressure to the lane surface.
- ALWAYS ratchet to a fresh, clean portion of cloth for each lane.
- Hang the Lane Maid unit between uses— if allowed to rest on the floor, a flat spot will be created in the foam roller.
- For best results, dust all lanes from pin deck to foul lines.

Lane Dusting / Cleaning Cloth

52-860078-000 - Lane Duster Cloth

61-860168-000 - Lane Duster Cloth

61-860250-000 - Lane Cleaning Cloth

61-860252-000 - Gold Edge Cloth

Keep your customers satisfied by giving them ideal lane conditions.

- White duster cloth removes dust from lanes without interfering with your conditioner pattern.
- Strong cloth is made from 100% rayon fibers that attract and hold dust and dirt while leaving conditioner undisturbed.
- The perfect refill for any brand lane duster (see comparison chart).

Brunswick Lane Maid

61-860158-001

Brunswick's unique design provides the ideal way to get the dust without disturbing the lane condition.

- Aluminum support bar applies even pressure to foam pad and duster cloth for a complete cleaning, regardless of lane conditions.
- Cloth contours to any lane and any lane surface.
- Automatic action ratchet advances duster cloth with no fuss.
- 43" wide duster cleans the entire lane in one pass.
- Lightweight for easy maneuvering.
- Installing clean duster cloth is a snap.

Precision Gutter and Capping Mop Refills

62-860094-000 (Set of two mop heads)

Don't let old, worn mop heads increase your work by forcing you to double run the gutters.

- Replace the old with clean, new mop heads.
- Same high-quality mop heads as your original.
- Heavy-duty reinforced stitching, strong lint-free cotton yarn, machine washable.
- Set comes complete with one larger mop head for ball return caps and gutters and one smaller head for division caps and gutters.

Precision Gutter and Capping Mops

62-860093-000 (Set of two mops)

Cut your cleaning time in half by using these convenient mops.

- Specially designed mop head cleans cap and gutters at the same time.
- One mop has a larger head for ball return caps and gutters, the smaller mop cleans division caps and gutters.
- Package comes complete with one mop of each size.
- Mop head made from strong woven yarn that grabs dust from caps and gutters.
- Heavy-duty reinforced stitching prevents lint-free yarn from coming loose.
- Mop heads are machine washable.
- Swivel handle for easy operation.

Lane Maintenance Applicator

61-860230-000 (Complete applicator)

If you're cleaning lanes by hand, there's no better tool to use.

- Reinforced handle won't break or bend as you apply pressure.
- Replaceable pads are made from durable nylon.
- Grips terry cloth lane towels for heavy-duty lane cleaning.
- Use Brunswick Key Towel 2 1/2 yards or 3 1/2 yards.

Red Edge® Lino-Duster® Cloth

- The number one selling duster cloth in the world!
- Strong, long fibers trap and hold dirt.
- Removes dirt while leaving conditioner pattern undisturbed.
- Available in sizes to fit any lane maintenance machine or lane duster.
- 100 yards per carton.

See Chart Below

8460XL® Lane Cleaning Cloth

- Developed for use with DBA lane cleaning equipment (DBA LaneWalker LCM™, DBA ARROW™, DBA Phoenix®, and DBA Phoenix®-S).
- Heavier weight than normal duster cloth.
- Virtually “scrubs” cleaning solution onto lane surface.
- Now with 20 additional feet of cloth per carton.

See Chart Below

Lane Maid® Lino-Duster®

178500 DBA Lane Maid Lino-Duster (includes 1 roll of 8430 Red Edge cloth)

- Rugged, lightweight, all metal construction.
- Designed to apply even pressure to not disturb conditioner pattern.
- Redesigned ratchet for added durability.
- Adaptable adjusting device holds all widths of wooden core cloth.

Dusting Supplies

APPROACH SUPPLIES

Approach Spot Cleaner

62-860034-004 (4 x 1 Gallons)

Keep your approaches looking clean and spotless.

- Removes dirt and heel marks fast and efficiently.
- Solvent-based cleaner dries quickly.
- For use on all approach surfaces.

Approach Mop

62-860095-000 (Complete mop)

Keeping your approaches clean is essential for optimum sliding conditions.

- 36" wide mop head is ideal for dusting approaches.
- Durable cotton yarn head attracts dust and dirt, leaving your approaches clean.
- Washable and replaceable.

IPA 99 Synthetic Approach Cleaner

61-860254-000

(12 x 1 Quarts with 4 sprayers)

61-860255-000 4 refill bottles (1 Gallon each)

Synthetic approaches need to be cleaned with a product that will not leave moisture on the approach surface. IPA 99 effectively "conditions" a synthetic approach after it has been spot cleaned; it also displaces surface moisture as part of a regular synthetic approach maintenance program.

- Convenient 1 quart spray bottles with sprayer.
- One gallon refill containers.
- Pulls moisture from synthetic approaches.
- Not recommended for use on wooden approaches.

Approach Treatment

62-860078-001 (4 x 1 Gallons)

Take the stickiness out of your approaches.

- Improves slide conditions for sticky approaches.
- Provides long-lasting, effective treatment on both wood and synthetic lanes.

Approach Mop Refill

62-860096-000 (Mop head refill)

Armor Slide

62-860024-000 (2 Gallons)

Give your synthetic approaches better slide characteristics—use Armor Slide.

- General purpose approach aid improves approach performance.
- For synthetic approaches only.

Approach Dry Slide

62-860210-600 (12 x 11.2 Oz Canisters)

Approach Dry Slide is a non-abrasive powder used to eliminate sticky approaches. It can be used on both wood and synthetic approaches and is easy to apply. Offered in convenient 11.2 oz shaker canisters for ease of application.

- Non-abrasive.
- Eliminates sticky approaches.
- Used on both wood and synthetic approaches.
- Best product offered to eliminate sticky approaches.

Formula "C" Approach Conditioner

120562B (12 x 13 oz. cans)

120562C (4 x 1 Gallons)

- Relieves chronic stickiness.
- Designed for use on coated wood approaches (On approaches with water-based finish, test first on an inconspicuous part of the approach.)

Approach Mop

180435

Complete 5" x 36" consists of 1 each: stainless steel frame, handle & refill

Dura-Slide® 562-S™

120562S (2 x 1 Gallons)

plus empty pint spray bottle per carton

- Reduces approach stickiness on synthetic lanes.
- Buffed with a terry cloth pad.

Approach Mop Head Refill

180435R 5" x 36" (each)

Aquarius® 2601 Approach Cleaner

1326011 (4 x 1 Gallons)

- Developed for wood approaches coated with water-based finish.
- Removes dirt, oil, crayon, ball and shoe marks.
- Approaches ready for use immediately after cleaning.

MAINTENANCE SUPPLIES

Brunswick Liquid Friction Pin Deck Treatment

62-860138-000 (2 x 1 Gallons)
plus empty pint spray bottle per carton

Effectively ends out-of-range and sliding pin problems.

Liquid Friction quickly and effectively increases the coefficient of friction of pins decks, promoting falling pins over sliding pin action.

- Easy to use.
- Just spray and dry.
- Works effectively with both wood or synthetic pin decks.

Deck Chute Conditioner

62-860029-000 (1 Quart)

Improve the durability and performance of your deck chutes. Longer lasting and more stable, this Advanced Performance deck chute conditioner has been designed to minimize deck jams by allowing pins to slide easily through the chutes.

- Improved formula promotes longer chute life.
- Durable and more stable.
- Minimizes deck jams and downtime.

Shield® Urethane Coating

62-860063-001 (1 Gallon)

A routine coat of Shield urethane decreases wood damage and increases pin deck life.

- Use on wood pin decks, flat gutters and kickbacks.
- Easy-to-apply clear urethane coating dries to a smooth, durable finish.
- One gallon covers

approximately 300 to 500 square feet.

- Note: Brunswick Shield contains volatile organic compounds (VOCs). Before using, check local regulations for VOC restrictions.

Ballworx® Ball Polisher

14-860170-090 (United States)
220 Volt, 50/60 Hertz

Provides your bowlers with the ball polishing service they demand and puts money in your pocket.

- Purchase or vend.
- Easy price and machine cycle changes.
- Convenient dollar bill acceptor.
- House ball cycle.
- Programmable color LED displays your custom messages.
- Programmable Coin Mechanism for worldwide coin acceptance and programmability. Multiple coins can be programmed (including U.S. dollar coin and tokens).

Automatic Pinsetter Cleaner

62-860083-005 (5 Gallons)

Here's an effective way to degrease and clean your metal pinsetter parts.

- Strong, solvent-based cleaner cuts through tough pinsetter grease and grime.
- Note: Do not use on nonmetal parts.

Lustre Sheen Polishing Compound

14-800007-000

(2 Compound blocks per package)

Provides a higher level of polish (the standard compound for Ballworx). 100% compound, no fillers.

- Offers highest gloss of any polishing compound.
- For plastic, urethane or performance bowling balls.
- Fits Ballworx, Lustre Kleen and Lustre King.

Lustre KLEEN Compound

14-800003-000

Whether you're cleaning rubber or high performance balls, the original LustreKLEEN Compound is still the best.

- Specially formulated conditioning compound for use in our Lustre King, LustreKLEEN, Perry Austen Gleem machine, and all Century Ball Performance Center machines.
- Cleans and polishes urethane, rubber, and plastic balls.
- Special formulation is guaranteed not to break.

Sani-Spray Shoe Sanitizer

61-860062-000

Strike rental shoe odor dead with power to spare.

- Clean, fresh scent to please your customers.
- Keeps your front desk storage area odor free for a pleasant work environment.
- One 15-ounce can sanitizes approximately 300 pairs of shoes.
- Sold in cases of 12 cans.

Pin Deck Treatment

1375852 (2 x 1 Gallons)
plus empty pint spray bottle per carton
1375851 (1 Gallon)

- Reduces sliding pins.
- Works well on either wood or synthetic decks.

Tile-Lastic® Waxless Floor Coating

1905611 (4 x 1 Gallons)

- Contains no wax.
- Easy to apply—dries quickly.
- Needs no buffing or polishing.
- Can be used on all types of floors.

Aero-San® Shoe Deodorizer

190170 (12 x 12 Oz. cans)

- Completely deodorizes and sanitizes rental shoes.
- Each can will freshen approximately 500 pairs of shoes.

#6040 Non-Toxic Machine Cleaner

1360405 (5 Gallons)

- Removes even the toughest dirt, oil and grease.
- Non-toxic formulation.
- Non-flammable.
- Metal parts can be submerged in cleaner without damage.
- Dries quickly with no film.

Dura-Guard® 1664 Clear Urethane

111664 (4 x 1 Gallons)

- Durable, clear polyurethane coating.
- Ideal for pin decks, flat gutters, kickbacks, edge boards, ball returns, etc.
- Regular use can maintain tightness in pit area.
- No mixing or thinning required.

Aerosol Approach Spotter

130190 (12 x 13.5 Oz. cans)

- Easy to use.
- Great for quick spot cleaning.

Blue Genie® Compound

203001 DBA Blue Genie®
(2 Compound blocks per package)

- Cleans and polishes all types of bowling balls.
- Specially packaged to avoid breakage.
- Fits Brunswick Lustre King, Lustre Kleen and Ballworx machines.

Buffer Roller Cover

183018 DBA Buffer Roller Cover – carpet material (Each)

183018M DBA Buffer Roller Cover – mohair material for a thinner, more consistent application (Each)

- Fits DBA/Century 100 lane conditioning machines.

Chlorinite® Solvent #008

1300091 (4 x 1 Gallons)

- Non-flammable.
- Quick drying.

Maintenance Gear

180702 Shoe Covers

180703 Protective Gloves

LANE MONITOR SYSTEM

Computer Lane Monitor System™

61-860226-600 (110 V)

61-860226-620 (220 V)

Includes 61-100057-000 (White Label Tape)
11-900070-000 (Transparent Tape 1")
61-860162-000 (Calibration Kit)
61-860155-000 (Lane Recorder)
61-860225-000 (Computer Lane Reader, 110V)
or 61-860225-220 (Computer Lane Reader, 220V)
Computer Lane Monitor System reduces maintenance time and human error.

- System includes all components of Computer Lane Monitor Optical Reader, Lane Monitor Recorder, Calibration Kit, UV Pick-Up Tape and White Marking Tape.
- Based on our computerized Optical Reader, this system takes the guesswork out of reading tapes and provides immediate, accurate feedback.
- Windows® software provides more detailed analysis including 3-D graphics (IBM compatibility required).
- Measure newly conditioned lanes as well as changes in lane conditions, such as oil depletion and carry-down.
- Keep bowlers satisfied by ensuring that lane conditions are the same from lane to lane and week to week.
- Once you've concentrated on consistent control of your lanes, your bowlers can concentrate on consistent control of their games!
- Verify that your lanes are in compliance with USBC/WIBC and FIQ conditioning rules.
- The lane monitor system requires that you use a lane conditioner containing USBC/WIBC specified UV additive.

Rubber Roller

61-100261-000

Computer Lane Monitor Optical Reader

61-860225-600 (110 V)

61-860225-620 (220 V)

An industry standard since 1988, the Brunswick Lane Monitor provides the ultimate in accuracy and reliability for measuring and graphing lane conditioner volume and distribution.

- Higher resolution for improved accuracy.
- Increased range accommodates higher conditioner volumes.
- Addition of USB port provides compatibility with new PCs.
- User-friendly software.
- Holds higher graph scales.
- High capacity tapes are conveniently read from end to end.

Calibration Kit

61-860162-000

Calibration Kit enables you to keep your Optical Reader properly adjusted for precise readings.

- Package of three strips.
- We recommend replacing calibration strips after one year.

UV Bulb

61-100060-000

Lane Monitor Recorder

61-860155-000

The original Lane Monitor Recorder is still the best.

- Two sliding tape carriages in an aluminum track are placed on the lane from gutter to gutter.
- One carriage applies the transparent tape to the lane surface to absorb the dressing.
- The second carriage lifts the dressing tape and laminates to a second tape, locking the dressing between the two, creating a permanent, accurate sample of the conditioner pattern.
- Comes complete with all recorder components, recorder tape, label tape, assembly tool and instructions in a sturdy case (61-860154-000).
- Additional UV Pick-Up Tape (11-900070-000) and White Marking Tape (61-100057-000) are available.

White Marking Tape

61-100057-000

The United States Bowling Congress requires that each lane monitor tape be properly labeled.

- Easy to use by cutting into 1" strips.
- Attaches to recorder tape samples to identify details of lane number, date, etc.

UV Pick-Up Tape

11-900070-000

Use this tape to assure that your lane condition is read exactly.

- Special-width tape works properly with the Brunswick Lane Monitor Recorder.

Grey Automatic Pinsetter Paint

62-860062-000 (One 12 oz. can)

Keep your pinsetter looking as good as new. Fix nicks, scratches and scrapes quickly and easily.

- This is the original grey paint used on the automatic pinsetter.
- Convenient spray paint dries quickly to a durable finish.
- Available in a 12-ounce aerosol can.

Brunswick Custom Coat

62-860110-000

This remarkable formulation combines high gloss with outstanding adhesion and excellent scuff resistance.

- Two-component, water-based epoxy.
- Nonflammable and VOC compliant.
- Low odor.
- Can be used on seats.
- Dries overnight.
- Available in 90 standard colors or may be special ordered in 1,600 colors.

Source Power Printer Paper

67-860251-000

This paper is ideal for printing league records, bowler information, accounting ledgers, and more.

- 8 1/2" wide white paper for use in your Source Power Printer.
- Tractor feeds are perforated for easy removal.
- Package of 3,400 sheets.

Command Network™ Team Scoring Recap Forms

57-860422-000 (4-part form/package of 750)

Choose the format that meets your needs.

- Use this special NCRTM paper in Command Network printers.
- Distribute forms to team captains, league secretaries, offices/managers, newspapers, or others who could benefit from the scores.

Printer Paper for Command Network Receipts

57-860412-000

Always hand customers a receipt for their purchases.

- One 90' roll of white receipt paper.

Brunswick Max® Pins

63-860167-167 (Crowns)

63-860168-167 (Stripes)

Brunswick Max Pin delivers every feature you need, for maximum durability, maximum scoreability and maximum reliability.

- Molded-in base.
- New base finishing system to help prevent out of ranges.
- Made of the finest northern hard rock maple - maximum durability and pin action.
- Durable adhesive bonds provide added strength - makes them stronger than the wood itself.
- Highest-grade Surlyn® jacket extends pin life and delivers more performance while resisting bulging and blistering.
- High-tech injection molding process - no seams to fuse. Predensification of wood core.
- Multi-layer topcoat system keeps Max the whitest and brightest, resists dirt, oil and scratches and keeps Max running smoothly through the machines.
- Surefooted nylon base - pins take a beating and stay put.
- Controlled weight - most consistent scoreability.
- Optical brightener is built into the Surlyn cover stock material - not just added on - so the glow continues, even if the topcoat is scratched or chipped.
- Available in crowns or stripes.
- Single pins available.

Graphic Glow Max

63-860165-167 (Crowns)

63-860166-167 (Stripes)

- Molded-in base.
- New base finishing system to help prevent out of ranges.
- Single pins available.

For glow-in-the-dark bowling, UV brightener makes pins appear whiter under standard lighting; brighter under UV conditions. Scans easier for more accurate electronic score keeping. Plus, the optical brightener is built into the Surlyn® cover stock material—not just added on—so the glow continues, even if the topcoat is scratched or chipped.

Max Colored Pins

63-860136-167 (Blue Pin) NEW!

63-860137-167 (Green Pin) NEW!

63-860170-167 (Gold Pin w/logo) NEW!

63-860161-167 (Magenta Pin)

63-860138-167 (Yellow Pin)

63-860139-167 (Orange Pin)

Max comes in five vibrant, solid colors so your bowlers can add to their good times playing colored head pin, or any game.

- Molded-in base.
- New base finishing system to help prevent out of ranges.
- Single pins available.

Score King Red Crown

63-860179-167

Score King Graphic Glow

63-860180-167

- Molded-in base.
- New base finishing system to help prevent out of ranges.
- Single pins available.

The perfect pin for the perfect game. Customers have two great reasons to bowl in your center against the Brunswick Score King. Bowlers who roll a sanctioned 300 game at your center against Score King pins will receive their choice of a Brunswick 300 Club award jacket or a Brunswick 300 award bowling pin. This exclusive pin delivers the same durability, scorability and reliability of the Brunswick Max Pin, but with a different look. Join the Club and make this pin part of your center today.

Brunswick Mini Pins

63-860010-001 Single Mini Pin

63-860010-050 Box of 50 Mini Pins

63-860010-099 Box of 99 Mini Pins

- Available in gold or wood finish.
- Stands 6.5" tall.
- Customize with your center's logo for an additional charge.
- Great for awards and party favors.
- Available in stripes only.

Detergent Pin Cleaner #555

1305555 (5 Gallons)

- Contains no solvents or hazardous fumes.
- Non-flammable.
- Cleans both Surlyn® and nylon coated pins.
- An excellent all purpose cleaner, DBA #555 can be used on wood, metal and painted surfaces.

#522 Non-foaming Pin Cleaner

1305225 (5 Gallons)

- Non-Foaming.
- Quick Drying.
- Cleans both Surlyn® and nylon coated pins.

Pinbrite Pin Cleaner

63-860156-000

Make your pins look like new again.

- Special formula cleans and moisturizes pins, increasing their life.
- Gives pins a clean, bright appearance.
- Available in a five-gallon container.
- Use with Brunswick Spin Clean.

Bankshot™ Bumper Bowling System (1 Lane Kits)

171801GK Medium Gray

171801K Charcoal

171811GK Medium Gray with GID Rail

The affordable bumper bowling system that will bring in the bucks, from bumper leagues to bumper birthday parties.

- Easy to install.
- Pays for itself fast, turning revenues to pure profits.
- Made with all-metal uprights for improved durability and performance.
- Goes from up-and-ready to out-of-sight quickly and easily.
- Can be automated or integrated with Frameworx® scoring at any time.
- Bankshot colors complement any décor.
- Available with glow-in-the-dark rails.

Bankshot Channel Only Kits

171805K Charcoal Channel Only Kit

171805GK Medium Gray Channel Only Kit

Bankshot Rail Upgrade Kits

171806K Charcoal Rail Upgrade Kit

171807K Medium Gray Rail Upgrade Kit

171817K Medium Gray GID Rail Upgrade Kit

Bankshot Upgrade Kits

84-860703-000 Gas Spring and Hardware

Product designed for retrofitting existing DBA Bankshot.

- Provides ease for raising rails.
- More stability from impact when rails are up.
- Smooth transition when lowering.

84-860100-000 Tool Package

Improved deployment tool for raising Bankshot.

- UV print glows for Cosmic Bowling®.
- Enamel-covered eyelets for added strength.
- Eyelets on inside of arch for airflow.

Youth Velcro® Shoes

58-109112

Sizes 7-13, 1, 2, 3, 4

- Leather lining.
- Stitched leather sole with channel.
- Enamel-covered eyelets for added strength.
- Velcro closure.
- Eyelets on inside of arch for airflow.

House Balls

Nothing can take the wear and tear ... the bumps and bruises ... the daily grind ... like Brunswick plastic and urethane balls. To simplify things, all house balls are color coded by weight and feature that weight in large, easy-to-read type. Brunswick offers standard drilling and can customize the engraving on all house balls.

- All Brunswick house balls radiate with light for the ultimate Cosmic Bowling® experience!
- Plastic house balls available in 8 through 16 lbs.
- Urethane balls available in 6 through 16 lbs. (Strong enough to withstand young or unskilled bowlers using 6 and 7 lb. weights).

Cosmic Plastic House Balls / Assorted Colors

60-102102-94X	Undrilled/Unengraved	8 - 16
60-102102-44X	Engraved Only	8 - 16

60-860510-908	4 Ball Pkg., 8 lbs
60-860510-906	4 Ball Pkg., 6 lbs

Ball Plug Tips

1. Mix plug thoroughly for specified time before pouring into hole.
2. Pour slowly down sides of the hole or over a stir stick to avoid entrapment of bubbles.
3. Temperature of the plug, the bowling ball and the work environment **MUST** be between 68° and 72°F for a thorough cure.
4. Match colors in the compound before adding the hardener—this will allow extra matching time and eliminate over mixing of the plug material.
5. Measure compound and hardener accurately.
6. Use Cube Trays to eliminate plug waste.

BrunsPlus® Master Ball Plug Kit

60-860040-000

BrunsPlus is formulated to eliminate problems with overheating and cracking. Plus, our formula results in unsurpassed plug clarity and color matching, and it is compatible with all bowling ball coverstocks. BrunsPlus resists chipping and shrinkage to reduce and even eliminate rework.

- Unique 3:1 BrunsPlus System provides impact-resistant, bubble-free plugs in this two-gallon kit.
- Use on all brands and types of balls, including plastic, rubber, urethane and reactive resin bowling balls.
- Reduces inventory because it's a universal plug kit.
- Special clear resin provides the most transparent plug available. Its clarity makes color matching a snap with the BrunsPlus Color Kit (60-860425-000).
- Low exothermic cure cycle produces consistent plug results that are easy to machine and polish.

BrunsPlus® Pumps

60-860426-002

Specially calibrated pumps make measuring and mixing BrunsPlus compounds a simple task.

BrunsPlus® Dams

60-860427-000 (Finger Dams - oval)

60-860428-000 (Thumb Dams - circular)

These ball plugging dams are a must for any BrunsPlus job - be sure to keep them in stock.

BALL PLUG

321 Pro-Plug®

160321B Clear 2 Gallon Kit
(3 x 1/2 Gallons Clear Compound)
(1 x 1/2 Gallon Hardener)

160321COCM

(4 x 1/2 Gallons Clear Compound only)

160321HOM (4 x 1/2 Gallons Hardener only)

- The #1 selling ball plug in the world!
- Does not shrink—leaves no pin holes.
- Kits include black pigment to color compound.

321 Pro-Plug® Ultima™

160321UB Clear 2 Gallon Kit
(3 x 1/2 Gallons Clear Compound)
(1 x 1/2 Gallon Hardener)
